ACCOUNTING POLICIES AND NOTES TO THE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

The following are a summary of the significant accounting policies adopted by the NGO in preparation of these financial statements.

a) Basis of accounting

The financial statements have been prepared on accrual basis of accounting with respect to income in accordance with the accounting principles as set out below.

These accounting principles are in accordance with the policies and guidelines of Voice Ghana. However, in relation to the accounting treatment of the acquisition of property, plant, equipment and stock Voice Ghana is to expense these immediately to the direct operational cost at acquisition. These is deemed to be a more appropriate accounting treatment than the treatment normally afforded to such transaction in generally accepted accounting principles (GAAP), which would require these transactions to be recorded as assets subject to annual accounting charges as these assets are utilized or consumed.

b) Fixed Assets

A fixed asset is an item with a useful life of more than one year life and with a cost of more than $GH\not\in 2,000$. However an asset worth less than $GH\not\in 2,000$ but with an esteemed value (for example printer, radio handset...) may require tracking during its whole life cycle and should be included in the asset register. All fixed assets are written off in the year of acquisition.

c) Foreign currencies

Transaction in foreign currencies is converted at the rates ruling at the date of the transactions. Current asset and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. The resulting gains and losses are dealt with in the income statement.

d) Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with bank overdrafts.

e) Grant income

Grant income are recognized on cash basis and credited to the account when received in the form of cash or of other assets, the ultimate cash realization of which can be assessed with reasonable certainty.

f) Expenditure

Expenditure is recognized and accounted for on an accrual basis. Expenditure is analysed between direct operational cost and administrative and general expense.

g) Donations in kind

Donations/materials received in kind during the financial period represent all non-monetary donations. These are not recorded on the financial statements, but disclosed as an appendix to the financial statement, where applicable.

Donations in kind

Rae Tyler, an exchange student from Massachusetts, USA who studied at Mawuli Senior High School in Ho currently works as a braille transcriber and learned that VOICE Ghana received a grant from STAR-GHANA and its donor partners: (DFID, EU, DANIDA, and USAID) to among others, engage local stakeholders to complete the Braille Resource Center at Mawuli Senior High School in Ho. This led her to begin collecting braille and large print reading materials for visually impaired students to donate to VOICE-Ghana for distribution.

The donation was a 20' foot shipping container which weighs approximately 10,000 pounds and includes 350 boxes of braille and large print books and educational materials, 155 pairs of crutches, 70 walkers, 15 wheelchairs and additional mobility equipment.

The US Defense Security Cooperation Agency's funded the transportation program and provided door-to-port transportation of the donated items. The estimated value of the donation exceeds \$100,000.
